Custom-Made Pinboards

We can make a pinboard in almost any colour, size or shape, for any situation - Just ask!

We source a large range of fabrics and colours from New Zealand's leading suppliers and manufacturers (see colour charts) and can make combination boards as well. Our boards can be either aluminium framed, to perfectly match our other whiteboard products, or edge-wrapped, depending on the decor and style of your interior.

We specialise in doing everything we can to satisfy your needs. Where others say it is impossible, we find a way! Whether you need a mobile pinboard, an obscure size or colour or just want the quality workmanship that we insist on, contact us to find out what we can do for you.
