

## Specifications

---

Typing on tiny smartphone and tablet screens can cramp your fingers and your productivity. That's why we're so excited to let you know about the release of our newest product, the **Goldtouch Bluetooth/Wireless Mini Keyboard**, at 265mm wide for the on-the-go user.

The ultra-portable Goldtouch Bluetooth and wireless Mini Keyboard is well-suited for the modern, on-the-go lifestyle. Just slip this thin, lightweight keyboard into your travel bag and bring it with you wherever you go, from the boardroom to the airport —no wires or plugs necessary. Equipped with Bluetooth wireless technology, this

stylish mini keyboard is compatible with the full ecosystem of Mac and PC devices, from your desktop to your notebook, tablet, smart phone and other smart devices.

**Goldtouch Bluetooth/Wireless Mini Keyboard** comes with soft-touch keys that provide the excellent tactile feedback. Combine with one of our [laptop and tablet stands](#) for a more comfortable work experience, wherever your travel takes you.

**Built with the stylish on-the-go worker in mind, the Goldtouch Bluetooth/Wireless Mini Keyboard is just 265mm wide x 115mm deep x 16mm thick and weighs only 281.7 gm., making it a portable and unobtrusive part of any mobile workspace.** This mini keyboard comes with 2 AAA batteries. **Dongle optional for Wireless only.**

**Plays nice with all of your technology:** The Bluetooth Wireless Mini Keyboard is compatible to Windows XP, Vista, and Windows 7, Windows 8, Windows Mobile & Windows Phone, Mac OS X 10.4 and newer, iPad with iOS 4.2.1 and newer, iPhone with iOS 4.2.1 and newer, Google Android 2.3 and newer\*

(\* Due to the open source nature of this operating system, Goldtouch cannot warrant support for all Android devices.)

**Reduces shoulder abduction:** Help your employees to mouse closer to their body. Take full advantage of all that your mobile devices have to offer with this convenient and stylish keyboard **No more typing long emails on tiny keyboards.** With the Goldtouch Wireless Bluetooth Mini Keyboard, experience all of the comfort of your desktop on the road or at home.

**Transport with ease.** At 16mm thick and 282 gm weight, you won't even notice the addition of this mini keyboard to your travel bag.
