

MoovRite - Rocking Standing Platform and Footrest

Reducing time in static, sedentary postures with a MoovRite could help you:

We've combined the comfort of an anti-fatigue mat with the health benefits of a balance board to bring you MoovRite, a new way to stay active at your desk.

MoovRite is a standing board and footrest that promotes both backward/forwards and side-to-side movement to fight the unhealthy effects of static posture. This movement activates the core while encouraging oxygen and blood-flow to the brain for sharper focus on work.

You can now use your sit-stand desk in absolute comfort thanks to the anti-fatigue mat layer, which helps reduce pressure on joints while standing. Even if you don't have a sit-stand desk, the MoovRite acts as a footrest to help you sit actively, stimulating your leg muscles and increasing your calorie burn.

Optional extra;

Hard floor protection strips are available if the MoovRite is to be used on hard surfaced floors.

- Maintain a healthy weight.
- Reduce risk of weight-related diseases.
- Improve balance and core stability.
- Reduce risk of musculoskeletal disorders.
- Stay alert and focused at work.
- Anti-fatigue mat layer to help cushion feet to reduce pressure on joints while standing.
- Backwards/forwards and side-to-side movement capabilities.
- Carpet layer for smart look and extra grip.
- Encourages active working for a healthier lifestyle.
- Activates core and leg muscles.
- Boosts concentration and productivity.
- Can be used on both carpeted and hard surfaced floors (hard floor protection strips needed).
