### WITAX Premium Magnetic Whiteboards

**WITAX**

#### WITAX Premium Magnetic Whiteboards

WITAX™ Whiteboards are a cost effective option for a quality whiteboard, featuring our durable Premium Magnetic whiteboard surface.

WITAX™ whiteboards are premium quality dry-erase writing surface with a polymer-on-steel finish. They are rigid but lightweight whiteboards, making them easier to install and are made in a large range of sizes from A4 up to 3600x1200mm. They are an economical choice ideal for situations where the writing surface is not in constant use. Outside of classrooms, most people are only writing and erasing occasionally.

WITAX™ whiteboards have a thicker, more heavy-duty coated steel surface than the industry standard making them a higher quality product than most others available on the market and are a better choice for quality and durability.

Features include:

- Smart aluminium frames
- Galvanised steel backing
- 5 Year surface guarantee
- FREE fixing kit with all boards
- FREE pen tray with all boards
